

SAP Crystal Reports 2008: Report Design III Report Processing Strategies – BOC330

IN BRIEF

Delivery: Instructor-led course
Duration: One day

Cost: \$800 per person + GST

Inclusions: SAP BusinessObjects expert instructor, comprehensive course manual, individual computer access, and fully catered lunch, morning and afternoon tea breaks.

Prerequisites: To be successful, learners who attend this course must have working knowledge of Windows conventions and Basic database concepts

Note: *Topics on Report Design III - Report Processing Strategies build on concepts from Report Design I – Fundamentals of Report Design and Report Design II – Business Reporting Solutions, therefore it is important that learners have a solid understanding of the concepts taught at that level.*

Products Covered: SAP Crystal Reports 2008

Previous Training: SAP Crystal Reports 2008: Report Design I and II

Course Description

This course is designed to give learners comprehensive skills and in-depth knowledge to plan and create reports that will help them analyse and interpret important information.

As a business benefit, learners will find that their increased understanding of reporting processing, formulas, custom functions and subreports will help them make more effective report design decisions and create more efficient reports.

Audience

This course is designed for report designers, who have taken SAP Crystal Reports: Report Design

I – Fundamentals of Report Design and SAP Crystal Reports: Report Design II – Business Reporting Solutions and who are responsible for creating and distributing reports.

Topics Covered
