

Pronto-Xi ODBC Development

IN BRIEF

Delivery: Instructor Led

Duration: ½ day

Class size: 10 Students Max.

Cost: \$350.00 per person + GST

Inclusions: Certified instructor, comprehensive course manual, individual computer access and refreshments.

Prerequisites: Attendees must have been working with Pronto-Xi for at least three months and have a basic understanding of the data kept on the system.

Products Covered:
Pronto-Xi

Course Description

ODBC is an investigative and reporting tool that can be utilised to design reports that do not exist in the Accounting Software, as well as being able to sort data files.

This workshop contains practical and theoretical components for the set-up and development of ODBC links in Pronto, and covers selecting, sorting and exporting data through ODBC.

Audience

This course will benefit Financial Controllers, Accountants and Business Managers involved in the preparation of financial reports for Executive Managers.

Objectives

On completion of this course, attendees should have the ability to design user-defined reports. These skills will enable attendees to:

- Produce simple reports using either single or multiple tables using Microsoft Query;
- Have a better understanding of the files structures within Pronto;
- Extract data from pronto directly into an excel spreadsheet or access database.

Topics Covered

- Importance of the F9 key (Table Structure)
- Use of Microsoft Query to access data

Other Workshops Available:

- Accounts Payable
- Accounts Receivable
- Customised Pricing
- End of Year
- Fixed Assets
- General Ledger
- Inventory
- Local Purchasing
- Payroll
- Roles & Securities
- Sales Order Processing
- Spreadsheet Financial Reporting
- SQL
- Warehouse
